INSTALLATION

Unscrew the back cover of the indoor siren and insert 4 AAA rechargeable batteries or use the USB power adapter included in the box.

WAIT!

Include the indoor siren to your Z-Wave network before mounting it.

Z-WAVE INCLUSION

1. Bring the siren within 3 feet from your Z-Wave gateway controller
2. Put your Z-Wave controller in inclusion/pairing mode
3. Press and release the Z-Wave button on the siren **THREE TIMES** quickly
4. A new alarm device should appear on your controller's device list

Z-Wave button

Q: I have not been able to add the device to my network after several attempts, what do I do now?

A: If you are unable to include the Z-Wave switch to your controller, please try one of the following:

- Bring the siren closer to your Z-Wave controller

- Press and release the Z-Wave button quickly several times once you put the controller in the inclusion mode to ensure the command has gone through
- Put your controller in the EXCLUSION mode and press and release the Z-Wave button quickly 3 times, then try adding it to your network again

Z-WAVE EXCLUSION

1. Bring the siren within 3 feet from your Z-Wave gateway controller
2. Put your Z-Wave controller in exclusion/unpairing mode
3. Press and release the Z-Wave button on the siren THREE TIMES quickly
4. The device should disappear from your controller's device list

Please repeat the process following all steps carefully if first attempt is unsuccessful

FACTORY RESET

If your primary controller is missing or inoperable, you may need to reset the device to factory settings. To complete the process, press and hold the Z-Wave button for 10 seconds.

NOTE: All previously recorded activity and custom settings will be erased from the siren's memory.

ASSOCIATION

Once the Z-Wave siren is added to your network, you are able to trigger it with other components from your network, as well as control and monitor its activity from your mobile device, or computer.

Depending on your Z-Wave gateway's home automation software capabilities, you may be able to associate your indoor siren in groups with other Z-Wave devices to schedule scenes and create events. Indoor siren supports Group 1 with up to five devices for lifeline communication (Group 2-5 is not supported).

Please refer to your controller's user guide for advanced programming instructions as they are a little different for every software.

MOUNTING

Find the best spot for your Z-Wave indoor siren - a corner in the living room, garage ceiling, or anywhere else you see fit. Use the 2 screws included in the box to fix the mounting bracket to flat surface of your choice.

Once the bracket is securely installed, carefully slide the siren onto the bracket and position it by tilting it to either side, upwards, or downwards.

WARNING

- This product should be installed indoors upon completion of any renovations
- Prior to installation, the device should be stored in a dry, dust- and mold-proof place
- Do not install the siren in a place with direct sun exposure, high temperature or humidity
- Keep away from chemicals, water, and dust
- Ensure the device is never close to any heat source or open flame to prevent fire
- Ensure the device is connected to an electric power source that does not exceed the maximum load power

- The batteries are only a backup power source and are not recommended for use as the main power supply
- No part of the device may be replaced or repaired by the user (except batteries)
