

Stick Engineering Specification

HKZW-STICK02

The Stick is a USB v2.0 full speed low power CDC-ACM compliant Z-Wave™ adapter in a thumb drive form factor. The Stick can act as a Z-Wave Controller when it's connected to a host like PC, MAC or Gateway (some in the market) etc. With a certain program installed on the PC, it can add or remove devices in or from a network.

I . GENERAL INFORMATION ABOUT FLOOD SENSOR

1. Product layout

2. Specifications

Power supply:	DC 4.75~5.25V
Storage temperature:	-20-60°C
Operational temperature:	-10-40°C
Radio protocol:	Z-Wave

Radio frequency:	908.42MHz
------------------	-----------

II . Inclusion and Exclusion

Plug the stick to the PC's USB port, start PC Controller and then it can add or remove other Z-Wave device.
