

Z-Wave Smart Stick - Instruction

SS311-EU-W

Introduction

Thank you for purchasing this Enblink product.

This product plugs into your Google TV™ unit and allows you to control and monitor real world devices such as light switches, dimmers, security sensors, and thermostats.

This product plugs into your computer and allows you to control and monitor real world devices such as light switches, dimmers, security sensors, and thermostats.

This product works with the Enblink application for your smartphone or tablet. This free application will allow you to control and monitor devices connected to your network.

Getting Started

Installation

Do not plug in the device into the USB port before called for by instructions.

Perform the following Steps to install the device:

1. Download the needed software driver from <http://www.enblink.com/download/SS311.zip>
2. Follow the instructions provided on the computer during installation of the driver.
3. Plug the Z-Wave USB Stick into the USB port of the computer.
4. The Z-Wave USB Stick is now ready to be used with a software application.

Technical Info & Set-Up Recommendations

Z-Wave™ is a two-way RF mesh networking technology. What this means for you, the user, is that your network becomes stronger each time you add a new device.

Each device in a Z-Wave™ network is designed to act as a repeater. Repeaters can re-transmit the RF signal to ensure that the signal is received at its intended destination (i.e., by one of your devices) by routing the signal around obstacles.

Best Practices

1. For best results, do not move or relocate devices after they have been included into the network. Z-Wave™ devices should be plugged-in or hardwired at the location where they will be used. If you wish to move a device, first delete it from the network, then include it back into the network after you have moved it.

2. To include a device, be sure that it is not already included in a network. If the device is already included in a network, you must first reset the device by following the instructions for exclusion.

Specifications

Z-Wave & RF Specifications

RF	EU	US
Z-Wave Chip	ZM5101	
Z-Wave Library	Serial API	
Device Type	Central Controller	
Z-Wave Protocol	Release 6.51.03	
Data Rate	9.6kbps / 40kbps / 100kbps	
Frequency	9.6kbps: 868.42 MHz 40kbps: 868.40 MHz 100kbps: 869.85 MHz	9.6kbps: 908.42 MHz 40kbps: 908.40 MHz 100kbps: 916.00 MHz
Range	Typical 40 meters	

Warranty

Unless specified otherwise, Enblink warrants that Enblink Products will be free from defects in materials and workmanship affecting normal use for a period of one year from invoice date ("Standard Warranty"). This warranty is extended to the original purchaser only and is not transferable.

This Standard Warranty does not cover damage, fault, failure or malfunction due to external causes, including accident, abuse, misuse, problems with electrical power, servicing not authorized by Enblink, usage and/or storage and/or installation not in accordance with Product instructions, normal wear and tear, acts of God, fire, flood, war, act of violence or any similar occurrence. Any attempt by any person other than Enblink personnel or any person authorized by Enblink, to adjust or repair the Products shall void the warranty.

During the one-year period beginning on the invoice date, Enblink will repair or replace Products returned to Enblink's facility. Customer must prepay shipping and transportation charges, and insure the shipment or accept the risk of loss or damage during such shipment and transportation. Enblink will ship the repaired or replacement products to Customer freight prepaid.

Enblink does not give any warranty that the Products are fit for any particular purpose and this Standard Warranty is given in place of all warranties, conditions, terms, undertakings and obligations implied by statute, common law, trade usage, course of dealing or otherwise including warranties or conditions of merchantability, fitness for purpose, satisfactory quality and/or compliance with description, all of which are hereby excluded to the fullest extent permitted by law.

If any provision of these Terms and Conditions is held by any competent authority to be invalid or unenforceable in whole or in part, the validity of the other provisions of these Terms and Conditions and the remainder of the provisions in question shall not be affected thereby. Where implied conditions and warranties cannot be excluded due to local trade practices legislation, Enblink's liability for breach of such conditions and warranties shall be limited, at Enblink's option, to

(a) in the case of products, the replacement of the products or the supply of equivalent products; the repair of such products; the payment of the cost of replacing the products or of acquiring equivalent products; or the payment of the cost of having the products repaired OR (b) in the case of services, the supplying of services again; or the payment of the cost of having the services supplied again. Enblink's total liability in respect of each event or series of connected events shall not exceed the total price paid for the purchase of product/s.

Enblink shall not be liable for Products not being available for use, or for data or software which is lost, corrupted, deleted or altered. Enblink shall not be liable to the Customer for any incidental, indirect, special or consequential damages arising out of or in connection with the purchase, use or performance of products or services, even if Enblink has been advised of their possibility.

DO NOT DISPOSE IN DOMESTIC HOUSEHOLD WASTE.

To return unwanted products, contact the manufacturers website shown on the product or your local sales office or distributor.
